Andreas Magnussen is a student wanting to get a career in Digital Media. He got a Draftsman (technical drawing) education that gives him a good understanding of Architectural drawings and terms. Now he got a true passion for Digital Media, especially Visualization, VFX and design. He has taken a 3d Design and Animation course, and is currently studying 3d Film Production at Noroff.

## Work Experience

**2007 - 08**

Kiwi Åskollen

Store employee

**2005 -**

VG

Paper route

## Research Interests

Read and learn about augmented reality and how I can use AR later in my career.

Learn more about how After Effects can be used to create VFX.

Learn Zbrush and how it can be used together with 3ds Max in an efficient way.

Read and learn more about how light and color balance should be used.

## Education
